

Support for Neurodiversity

Telia Global Services Lithuania TOP Diversity & Inclusion Initiative 2024

Telia Global Services Lithuania has actively promoted awareness about neurodiversity and inclusivity in 2024 through various internal and external initiatives.

In February, they showcased the **Autism Awareness** exhibition by Barbora Suisė and Tatjana Sofija Pleskevičienė in their main offices and on 50 outdoor billboards in Vilnius.

In April, Telia collaborated with the **Children of Rain** organization to spread the **Invisible Disabilities Sunflower ribbon** movement, distributing over 600 ribbons by December.

Telia's **Neurodiversity hub**, driven by neurodiverse employees, organized educational events, including a remote discussion and a quiz during diversity month in May.

For the winter holiday season, Telia launched a nationwide [campaign](#) to raise **awareness about autism and invisible disabilities**, reaching 1.6 million contacts and increasing downloads of the Burbulai (Bubbles) neurodiversity educational app by 33%.
